Lexend

[Titles, CTA & Buttons](#)

**We help churches
share the Gospel
digitally.**

Get Started

Lexend fonts are intended to reduce visual stress and so improve reading performance. Initially they were designed with dyslexia and struggling readers in mind, but Bonnie Shaver-Troup, creator of the Lexend project, soon found out that these fonts are also great for everyone else.

Public Sans

Subtitles & Body

Project Go helps churches share the Gospel digitally, so that more unbelievers find meaning and hope in Jesus.

Based on Libre Franklin, Public Sans is a strong, neutral typeface for interfaces, text, and headings.

We elevate. We connect. We inspire.

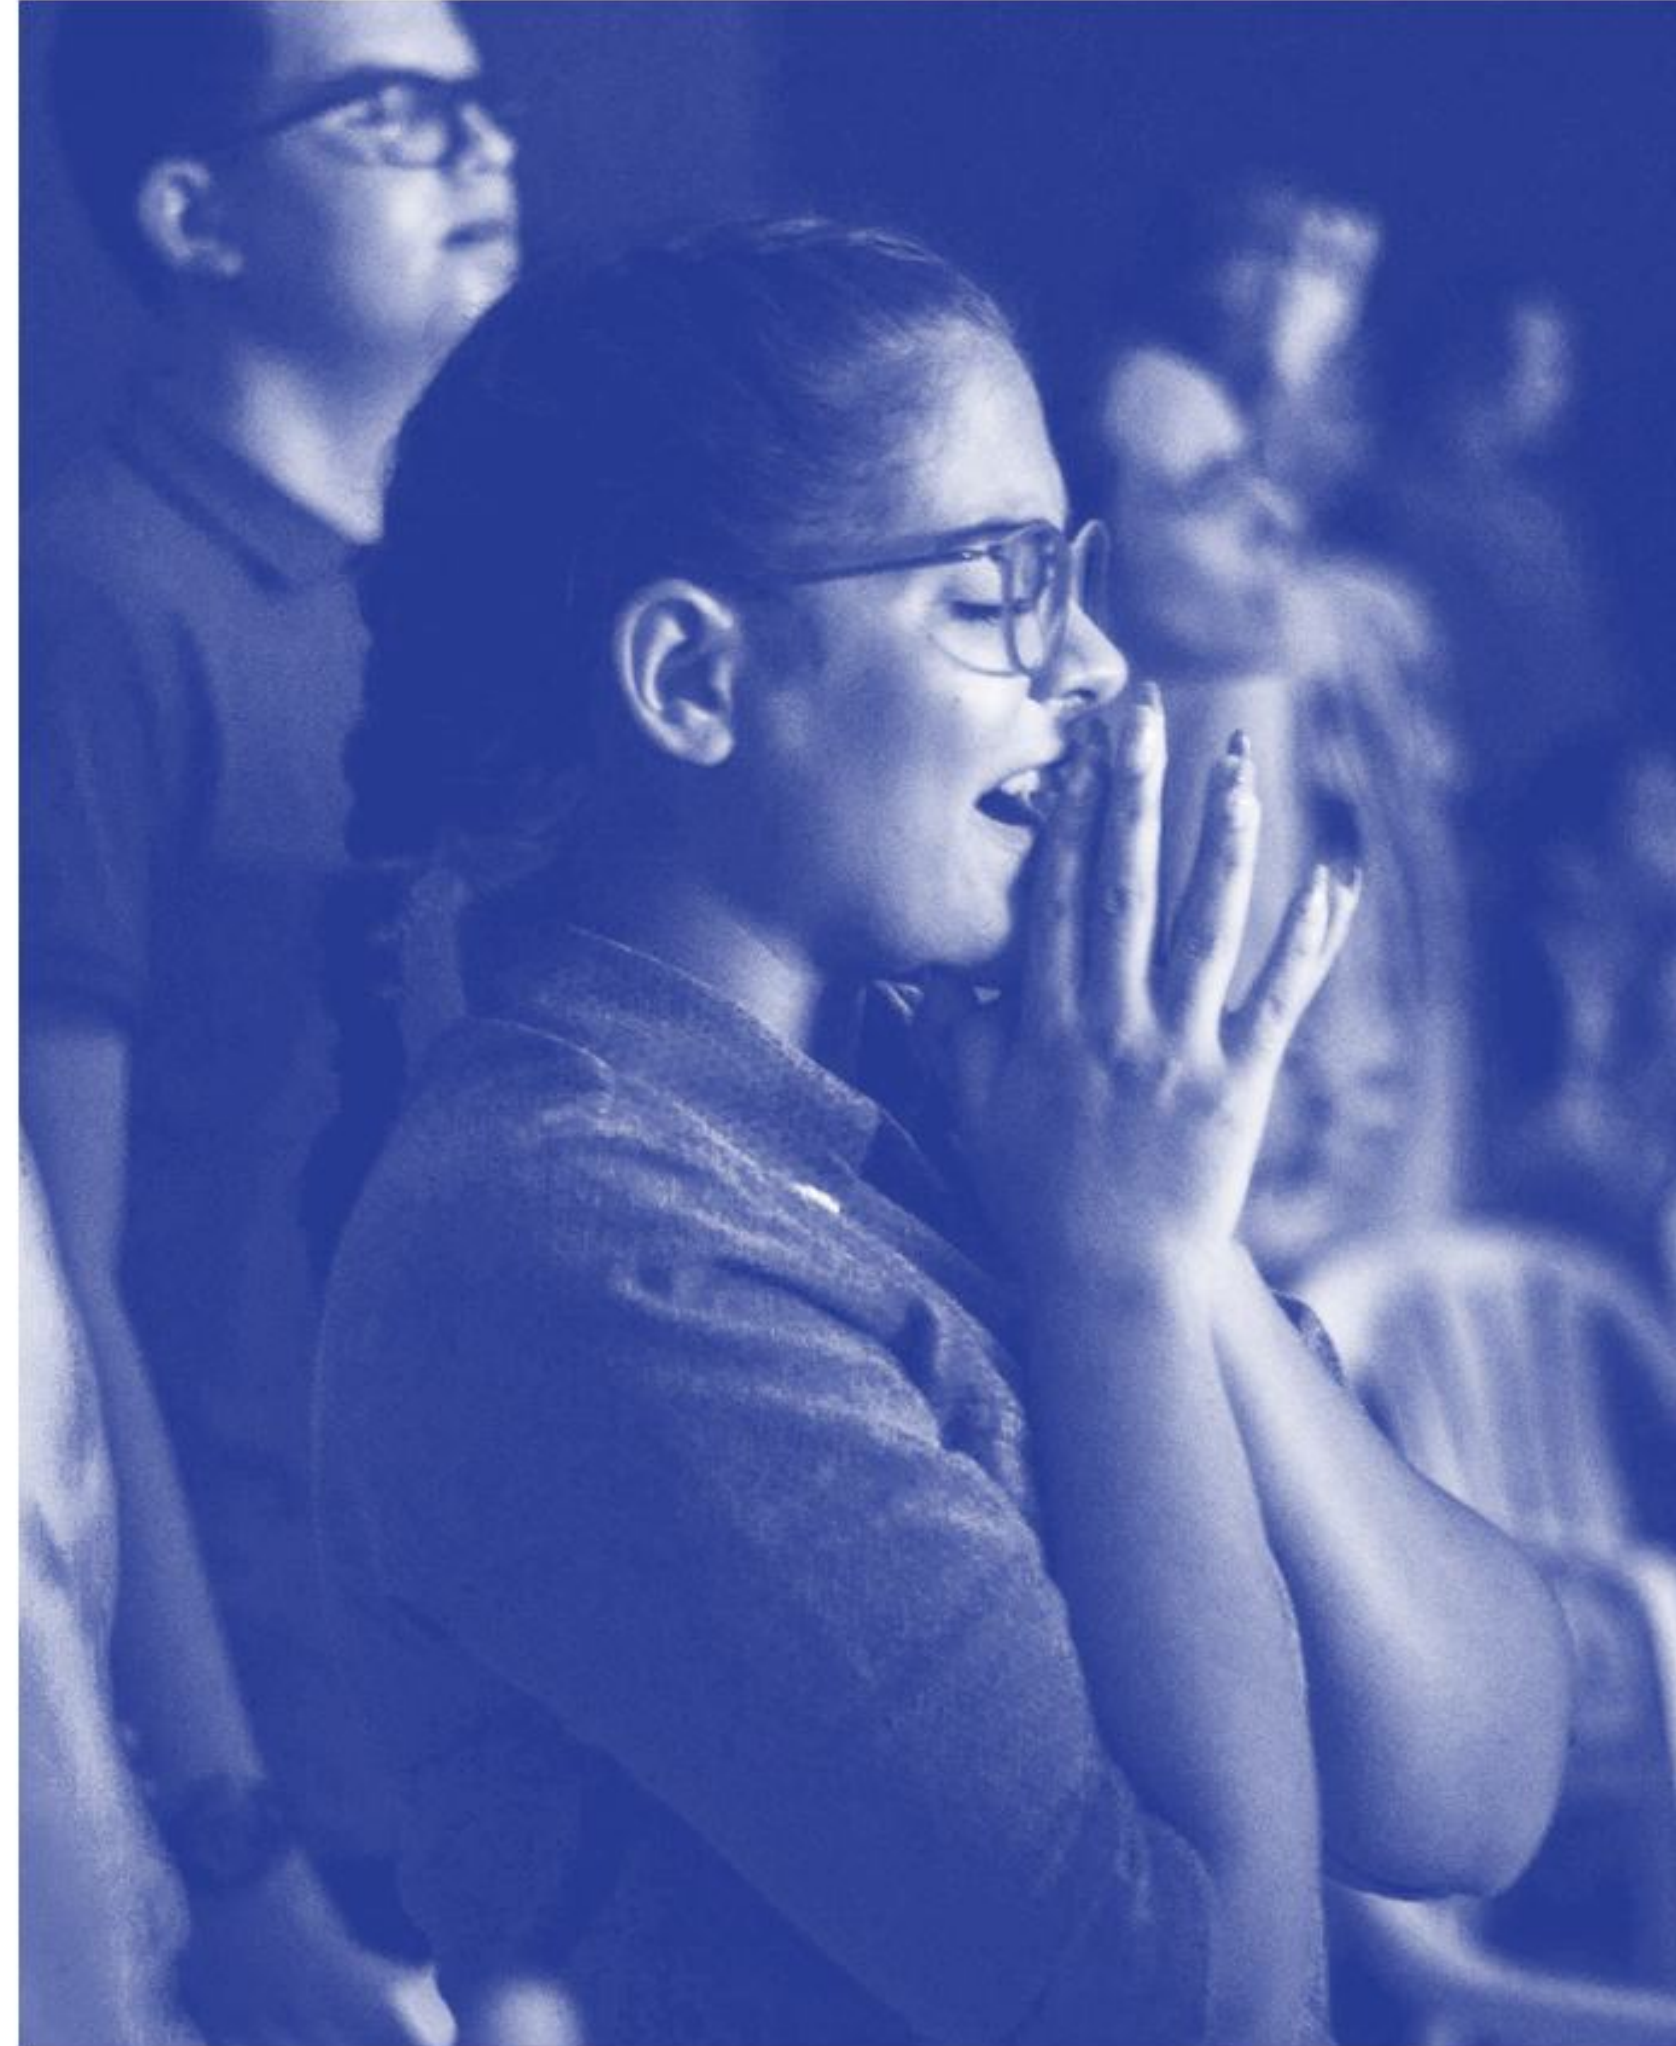

Building bridges, taking the presence of each church to new digital horizons.
